## **EASTERN AERO MARINE**

REPAIR STATION NO. RX3R831L

REPAIR STATION CAPABILITY LIST

### **INTRODUCTION**

This capability Document is a controlled document. All amendments or revisions will be submitted to the FAA Local Flight Standards District Office for review and approval prior to implementation and incorporation into this manual. The Record of Revision will be amended accordingly.

This Document is considered separate from the Repair Station Manual and will contain its own Table of Contents, Record of Revision, and List of Effective Pages.

This manual details FAA approvals issued for Emergency Equipment which this repair station may perform as listed on Air Agency Certificate number RX3R831L.

Only those components listed will be approved for return to service. Any additional components are approved on the Operations Specifications.
