SURVIVAL KIT SERIES

EAM
AVIATION

A LEGACY OF DEDICATION

EAM Worldwide was founded by Samuel Oroshnik, who was an aviation enthusiast since his teenage years. He took his passion for flying and turned it into a business to serve the unmet needs of the aviation industry. As a one-man shop, Oroshnik began by selling surplus safety equipment and later designed and built his own life rafts and vests by hand.

Today, EAM serves all OEM's, operators and lessors in the aviation and marine industries worldwide. Celebrating over 65 years as an industry leader, EAM continues to offer lightweight, innovative products which are customizable to meet clients' specific needs. Our dedicated team of specialized engineers continues to discover and design new applications in safety and survival technology year after year. EAM is also proud to support over 30 distribution centers and repair stations to ensure the optimal maintenance and performance of its products. EAM Worldwide proudly serves clients around the world with its headquarters in Miami, Florida and global sales office in Dubai, United Arab Emirates.

OUR PRODUCTS

Our survival kit catalogue provides survival safety solutions for commercial, corporate and general aviation clients. Each kit is manufactured with the highest quality of service and inspection to ensure we surpass the needs and expectations of our clients. In addition to our eight standard survival and safety kits, EAM Worldwide can also customize any survival kit to the exact specifications from our clients.

Kits Types Include: Desert, Jungle, Uninhabited Terrain, Polar, Military, General & First Aid packs.

SURVIVAL KIT SERIES

EAM survival kits are designed for emergency use on specific terrains and for different conditions. Each kit is sealed and is not to be used for any routine problems but only in emergencies. Our standard survival kits are designed to accommodate various durations (from 1 to 10 days of food and water supply, and medical and signaling equipment) and number of persons using the kit (from 1 to approximately 50 persons). EAM can also customize the survival kit to accommodate even more individuals and time duration if requested.

Please call our offices or visit eamworldwide.com for more detailed information.

DESERT

Equipment is designed for survival and search & rescue in uninhabited desert terrain situations. For use by aircraft crew and passengers in case of an emergency. The kit meets the specifications written for Middle East countries.

POLAR

Equipment specifically-designed for the survival and search & rescue in polar and frigid regions. For use by aircraft crew and passengers in an emergency situation.

JUNGLE

Equipment is designed for survival and search & rescue in uninhabited jungle terrain situations. For use by aircraft crew and passengers in case of an emergency. The kit meets Aeronautical Civil specifications for several Latin American countries.

MILITARY

Equipment specifically-designed for the survival of and search & rescue by military professionals in case of an emergency. The multi-purpose kits can be used at sea or in the jungle or desert.

UNINHABITED TERRAIN

Equipment is designed for the survival and search & rescue in multi-terrain situations including desert, jungle, mountain and frigid areas. All kits comply with the regulations of Civil Aviation Authority of Peru and US FAR 121.353 (C).

GENERAL

Collection of equipment designed for survival and search & rescue situations in case of an emergency. Specific kits are available for signaling, food, individual, helicopter and military.

FIRST AID KITS

First Aid Kits (FAK) components are housed in mountable metal containers. Kits contain items such as bandages, antiseptic swabs, and ammonia inhalants.

SUPPLEMENTAL KITS

Equipment to supplement the accessories kits already contained in the life raft or slide raft installed on the aircraft. For use by aircraft crew and passengers in an emergency situation.
